# Integrated Missile Defense

***Going Global: Pioneering New Missions for the Future***  
Space • Global Strike • Integrated Missile Defense •  
C4ISR • Information Operations

*U.S. Army Space and Missile Defense Command/  
U.S. Army Forces Strategic Command* conducts  
space operations and provides planning, integra-  
tion, control and coordination of Army forces  
and capabilities for the Army in support of U.S.  
Strategic Command missions.

## ***Integrated Missile Defense***

**SMDC/ARSTRAT** plans for, integrates and coor-  
dinates Army missile defense forces to include  
the ground-based midcourse missile defense  
system. It provides theater early warning and  
assessment of missile attack with organic  
capabilities and recommends coordinated  
offensive and defensive options and rules of  
engagement.
